

Strategic Pillars Overview

Real-time performance against 2025/2026 strategic objectives

School-Wide KPI Summary (21 Total)

Pillar	Total KPIs	On Track	Needs Attention	Off Track
Academic Excellence	8	3	5	0
Christocentric Education	7	5	2	0
Digital Innovation	6	5	1	0
TOTAL SCHOOL WIDE	21	13	8	0

WISCA Strategy Monitor — App Presentation Summary

1. The Concept

A Progressive Web App (PWA) that transforms the existing Excel-based strategic monitoring dashboard into a real-time, role-based accountability system. Instead of waiting for fortnightly manual audits, the school gets live visibility into whether teachers are delivering schemed work, how students are performing, and where intervention is needed, before gaps become termly problems.

2. What the App Looks Like

A. Executive Dashboard (Board & Proprietor View)

- Three-pillar cards showing live health status: Academic Excellence, Christocentric Education, Digital Innovation.
- Color-coded indicators: Green (On Track), Amber (Needs Attention), Red (Off Track).
- Drill-down tables: Click any pillar to see all KPIs, targets, actuals, achievement rates, and responsible owners.
- Auto-calculated averages: No more manual formula updates in Excel.

B. Academic Excellence Module (Priority Module)

The app's **core engine**, addressing the 5 of 8 Academic KPIs currently flagged as *Needs Attention*:

KPI	App Solution
AE-01 Curriculum Coverage	Teachers log topics covered weekly with photo evidence; system auto-calculates % against the uploaded Scheme of Work
AE-05 Lesson Plans	Lesson plan upload is gated — a topic cannot be marked "covered" without an approved plan
AE-06 Observations	System auto-flags teachers below 95% coverage for priority classroom observation
AE-03 Homework	Digital homework log with portal integration
AE-08 Reading Progress	Literacy coordinator inputs diagnostic data; progress tracked per student

C. Teacher Mobile Interface

- "My Week" screen: Shows exactly which topics the teacher is scheduled to cover, per the approved Scheme of Work.
- One-tap logging: Tap a topic → attach photo evidence of board work/student books → link lesson plan → submit for HoD approval.
- Offline-first: Works without internet; syncs when connection returns.
- Coverage progress bar: Teachers see their own % in real time — no surprises at audit.

D. HoD Verification Dashboard

- Review queue: All teacher submissions in one place with evidence previews.
- One-click approve/reject: With comment field for feedback.
- Auto-escalation: If HoD doesn't verify within 3 days, the Head of School is automatically alerted.
- Red-flag teachers: Those falling behind are highlighted for immediate intervention.

E. Supporting Modules (Full Scope)

Module	Covers	KPIs
Christocentric	Chapel attendance, character ratings, service hours, restorative discipline, scripture mastery, parent alignment	CE-01 to CE-07
Digital Innovation	LMS adoption, STEM projects, AI ethics compliance, staff digital skills, e-portfolios, parent portal engagement	DI-01 to DI-06
Intervention Tracker	At-risk learner flags, Tier 2/3 support plans	AE-07
Attendance & Assessment	Daily roll call, broadsheet integration, exam pass rates	

3. User Roles & Access

Role	What They See	What They Do
Teacher	Mobile "My Week" + homework/attendance tools	Log topics, upload evidence, mark attendance, record homework

Subject Lead / HoD	Verification queue + coverage reports for their department	Approve/reject topic logs, schedule observations, review team performance
Head of School	All data + red-flag alerts + observation scheduler	Oversee all KPIs, manage escalations, conduct lesson observations
Admin Officer	Attendance registers + broadsheet tools	Manage daily registers, generate termly reports
Board / Proprietor	Read-only Executive Dashboard	Monitor strategic health without operational noise
Chaplain / Student Life	Christocentric module tools	Log chapel, character ratings, service hours
IT / STEM Coordinator	Digital Innovation module tools	Monitor LMS,

Kindly review the roadmap and lemme have your inputs, sir.

Splendid day ahead
